For churches and religious nonprofit operations, the business of business is not business - it is ministry. Still, such institutions have to make plans. Because skilled organization is needed to accomplish specific tasks, a leader must train and motivate workers in progress and effectiveness. This second edition of Church Administration helps pastors and church staff become effective and efficient leaders, managers, and administrators. Among the topics discussed are: Administration Documents, Organizing the Church, Administering Personnel Resources, Financial Resources, Physical Resources, and Administering Risk Management. Writing for students as well as those already in this line of work, author Robert H. Welch promises, "If you understand the tenants of general administration and the techniques of ministerial leadership your job will be made significantly easier."

Church leaders are encouraged throughout the volume to adhere to theological principles for continued devotion to God's one true mission. That message is that Christ is God's mission. Christ is God's only mission for the church, the people of God. The church exists only as it participates in the "act of Christ." Chapter by chapter, the book communicates the necessity to intentionally combine God's divine mission as presented from biblical theology with practical applications of organizational leadership and management. The critical shift with this book apart for other resources highlighting the works of church administration is the acknowledgements that for the church to remain under the Lordship of Christ; the church must be in a continued pursuit to seek Jesus the Christ in all engagements of worship, administration, management and service. The Lord's purpose of redemption from sin and death has to remain front and central in every ministry, in all programmatic formats, and every service project represented by the church. God's call to redeem lost man unto salvation and discipleship is highlighted as functions to be grounded through participation in service models and organization. Learners come to view leadership and administration from a scriptural context. As a result, leadership theories and principles of management accurately operate with results that brings edification to the glory of God in all matters of church leadership for administration.

Communication has become an important theme and heuristic concept in practical theology for Roman Catholics during the ecumenical age. Communication Habits for the Pilgrim Church explains why the moral

order is given priority in Vatican teaching about communication and the reasons for Catholic social teaching to make moral judgments about these new realities. Attention is given in the book to the historical context of Vatican Councils I and II. The first chapter shows that behind the pilgrim Church lies an emerging vision of the threefold ecclesial offices of priest, prophet, and king. Chapter two examines the text and context of the Second Vatican Council's pastoral decree «Inter Mirifica». Chapter three provides a documented history of the Vatican's Pontifical Council for Social Communication and its teachings. In chapter four we return to the threefold office and examine the contribution of Pope John Paul II. It includes an analysis of how the politics of the Magisterium shapes Catholic social teaching. Chapter five develops major tenets of a critical analysis of the communication of the post-Vatican II Church: attention is given to the discursive aspects of religious authority, argumentation, bureaucratization, and market culture. Chapter six takes a step toward examining the pragmatics of contemporary Vatican teaching. For Roman Catholic moral theology, religious ethics is now deeply concerned with providing moral teaching and guidance on ethical questions raised by the social conditions of globalization and media communication. Communication Habits for the Pilgrim Church concludes that there are three basic sociological and theological aspects of the pilgrim Church. These include a ritual approach to religious communication, the generational experience of Catholics and their respective attitudes toward Church teaching, and the important link in the faith's praxis between reflexivity

"The church is a community of all true believers under the Lordship of Christ. It is the redeemed and redeeming fellowship in which the Word of God is preached by persons divinely called, and the sacraments are duly administered according to Christ's own appointment. Under the discipline of the Holy Spirit the church seeks to provide for the maintenance of worship, the education of believers, and the redemption of the world." - From the Preamble to the Constitution of The United Methodist Church

The product of over 200 years of General Conferences of the denominations that form The United Methodist Church, the Discipline is the current statement of how United Methodists agree to live together. It acknowledges the past and addresses the future. Updated through the actions of the 2016 General Conference, the new Discipline includes a complete listing of bishops from Thomas Coke and Francis Asbury through the 2016 episcopal elections as well as a revised historical statement, an expanded index, and six parts: The Constitution General Book of Discipline Doctrinal Standards and Our Theological Task The Ministry of All Christians Social Principles Organization and Administration

Cyber Worship in Multifaith Perspectives, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an "everything you need to know" guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in

cyberspace. Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.

With over 60,000 copies in print, Church Administration in the Black Perspective, first published in 1976, has become a classic reference manual. African American pastors through the years have looked to this informational guide as a source for details on church structure, management, and organization. This resource addresses the particular needs of the pastor and church staff who have been charged with the responsibilities of administration in the black church context. Not only does this revised edition feature updated language, but it also includes fresh information in such areas as budgeting and the use of modern technology. The authors supply detailed information on creating a church budget, and discuss the role websites, computer technology, and cable access television can play in helping churches to carry out their mission. The book includes guidelines for effectively organizing church boards and committees, as well as details pertaining to

overall church structure. The authors' perspectives are well grounded in the experience of the African American Christian community, as the text explores how the African heritage and slave experience have molded black church traditions. The authors bring to the writing of this book a blend of practical and academic experience. Book jacket.
