A Micronta 3001 Metal Detector, an old VLF type of metal detector with a meter and needle indicator. Nothing fancy, but it would detect metal and that is all I needed or wanted at the time because I didn't know the difference in one detector and another! I went by my buddies house and picked up the detector one cold winter evening.

Become a metal detecting expert with this A-to-Z guide that covers everything from choosing equipment to finding the best sites and selling your finds. Nothing is as thrilling as finding cool (and often valuable) stuff right under your feet. So grab this guide and get ready to dig up more and more finds. Packed with helpful information on making your search successful and exciting, The Metal Detecting Bible serves up step-by-step instructions, illustrations, and useful photos that can turn you into a professional treasure hunter. From quick-start tips for novices to insider secrets for the most experienced hobbyists, this hands-on guide is the ultimate resource on all aspects of metal detecting. • Choose the best metal detector • Learn where to search and why • Practice appropriate swing techniques • Integrate advanced GPS technology • Scout out beaches, parks and historic sites • Gain permission to hunt on private property • Identify antique coins, relics and jewelry • Use handy target recovery tools • Clean and safely preserve your finds • Sell your finds for a profit

Cites the patents of 29 inventors that relate to radio and television, in chronological order, so that the development of their careers can be traced. Also includes patents in electricity and telegraphy that prepared the way for radio, and Marconi's British patents. Covers to 1955. No subject index. Annotation copyright by Book News, Inc., Portland, OR

This best selling book has become the standard reference to TTL devices. It tells what they are, how they work, and how to use them. TTL Cookbook is filled with typical circuits and practical applications to aid the user who wants to learn about and use TTL. Book jacket.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

Tatum Everley is a freshman at Western Michigan University. Due to an emotionally and psychologically abusive past relationship, Tate struggles from Complex-Post Traumatic Stress Disorder. She has been working on controlling her symptoms and flashbacks, but when she meets Axel Burne at a fraternity party, who is notorious for sleeping around and getting into fights, she tries her best to dodge the bullet. Axel starts to become intrigued by Tate, but she's better off choosng Lucas- the sweet guy who has been trying to take her out since orientation. But even though Lucas is the better option, Axel keeps reappearing. Tate continues to try to stay away from him, but it starts becoming harder to, and as she gets closer to him, things start to get way out of hand. If Tate wants her happy ending and her sanity intact, then she has to push through the hardships and maintain control over her disorder.
